**Now you're ready to create your street design!**

**You can decide what exists on both sides of the street (House, Building, Waterfront, Parking Lot, etc.). The default is grass.**

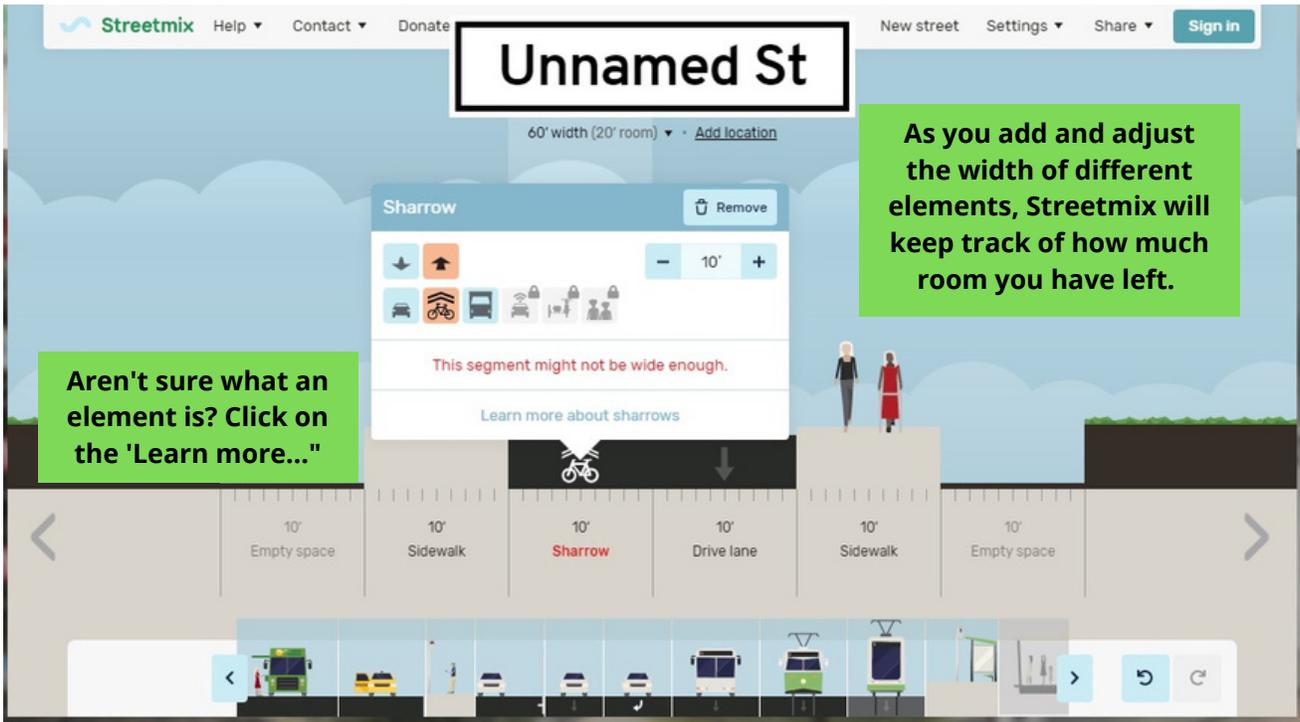

**Hover your cursor over the grass element for more options.**

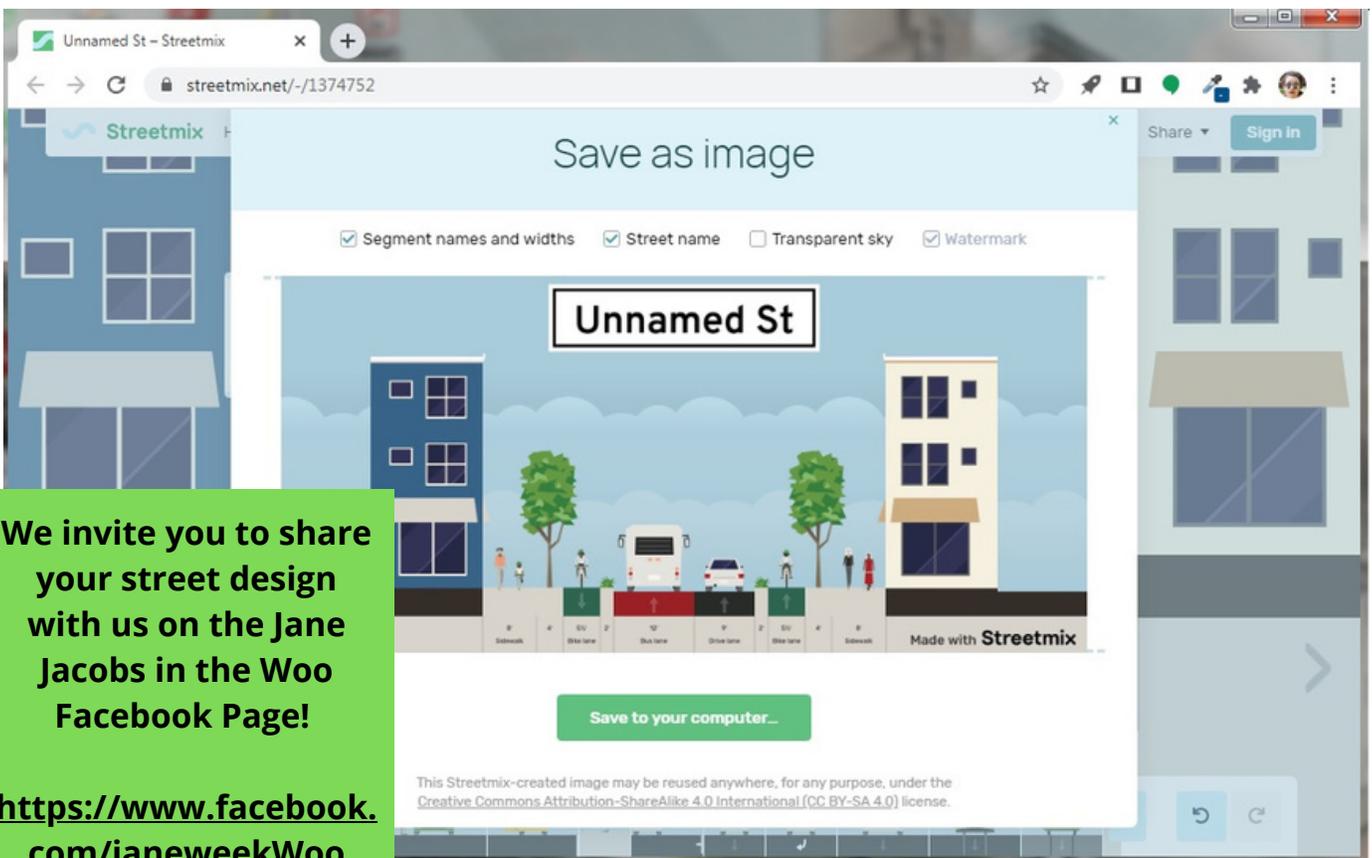

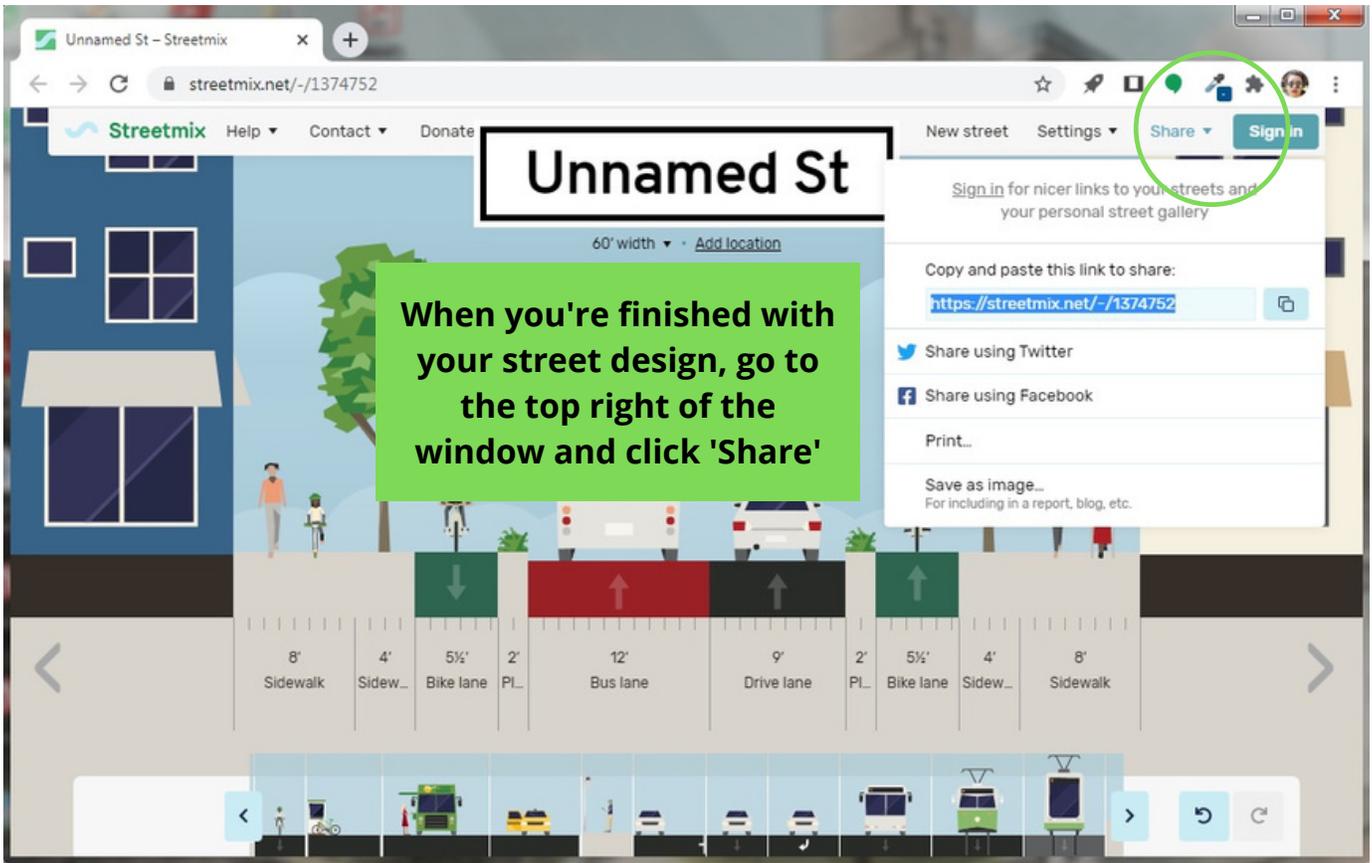

**Adjust the width of your element or change the style by click on these buttons**

**To ADD elements to your street:**

- Hover your cursor over the picture of the element you want
- **CLICK**
- **DRAG** to the middle 'Empty Space'
- **DROP**
